

# letters to plants

# The plants we live with

Some plants are historical landmarks defining the landscape of our cities

Some are important parts of our everyday lives and spaces

Some plants we care for

Some plants nourish us

Some plants we ignore as  
they silently share our  
spaces, ignored, scorned,  
or loved in their own ways.

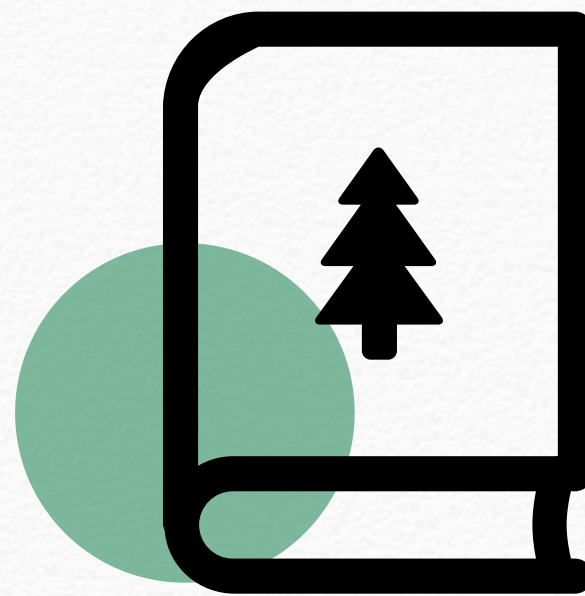

# You may want to get to know these plants

Pay attention to the plants with which you share your lives and worlds.

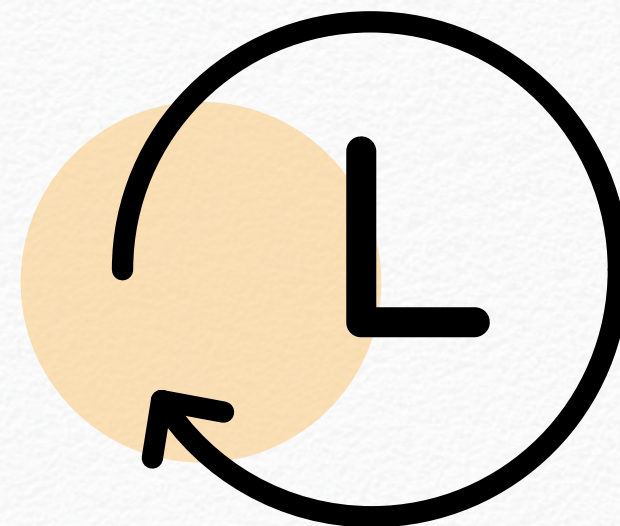

Find out their names

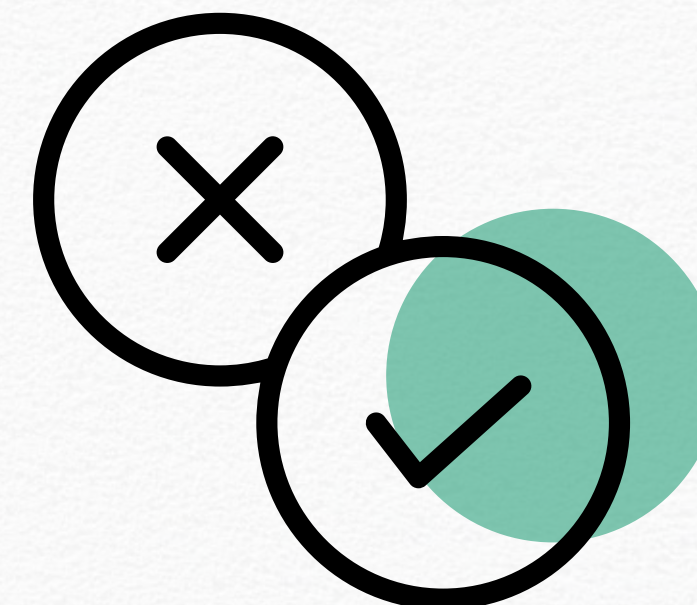

Their stories

Download the **inaturalist**,  
**picture this** or **google lense**  
on your phones.

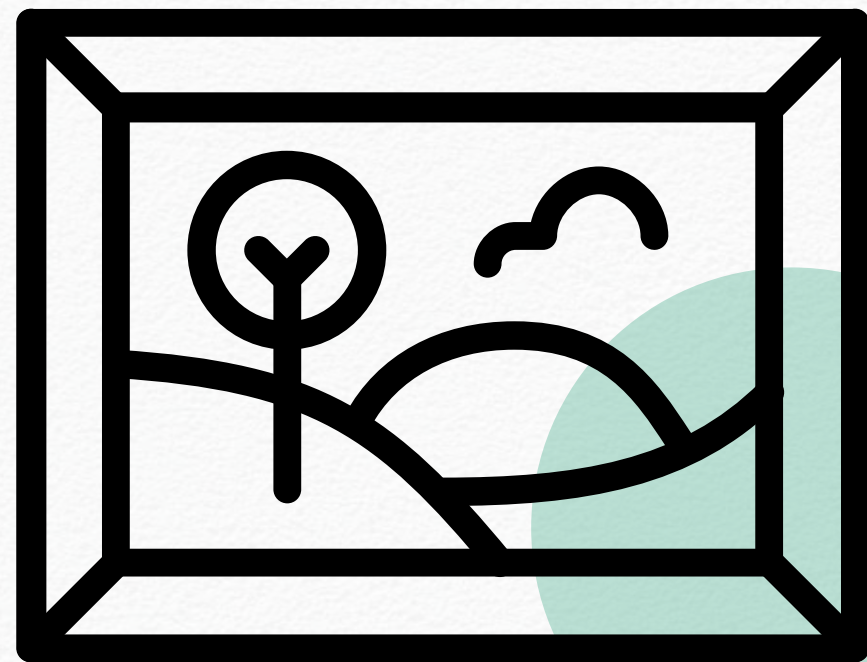

Their habits

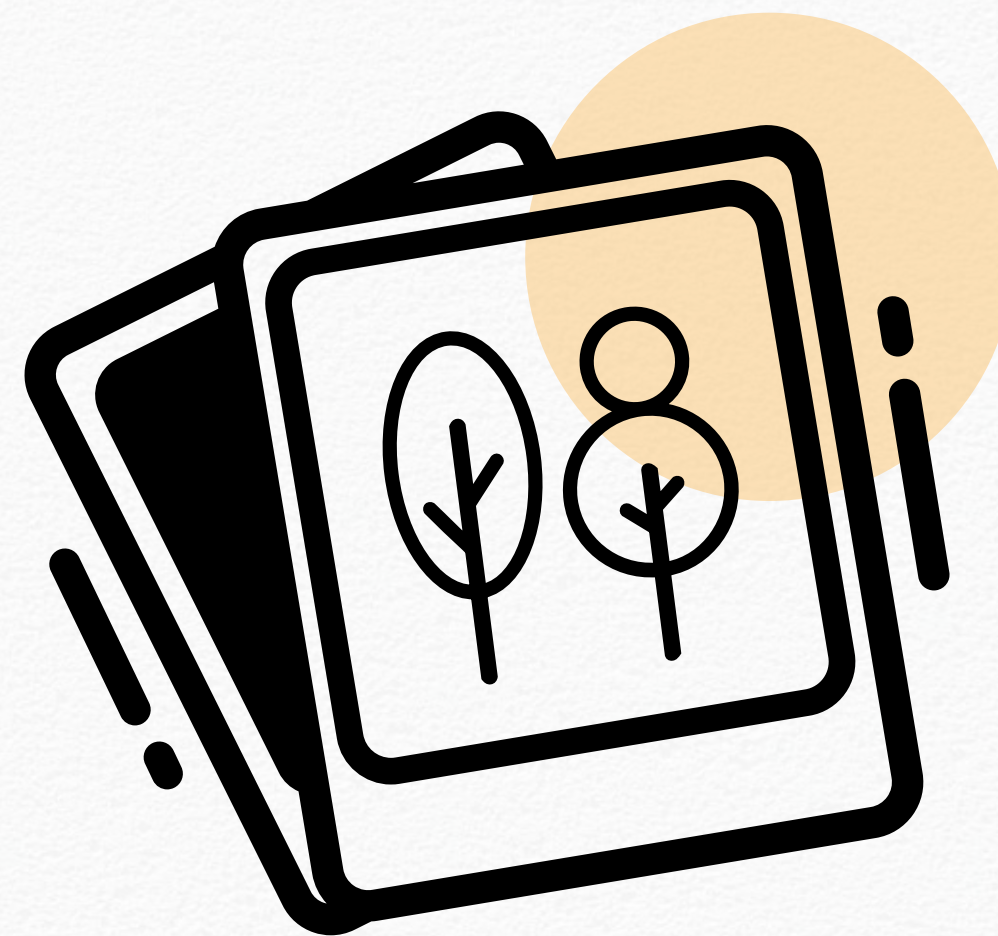

Their likes and dislikes

You may include portraits you  
have made and drawings

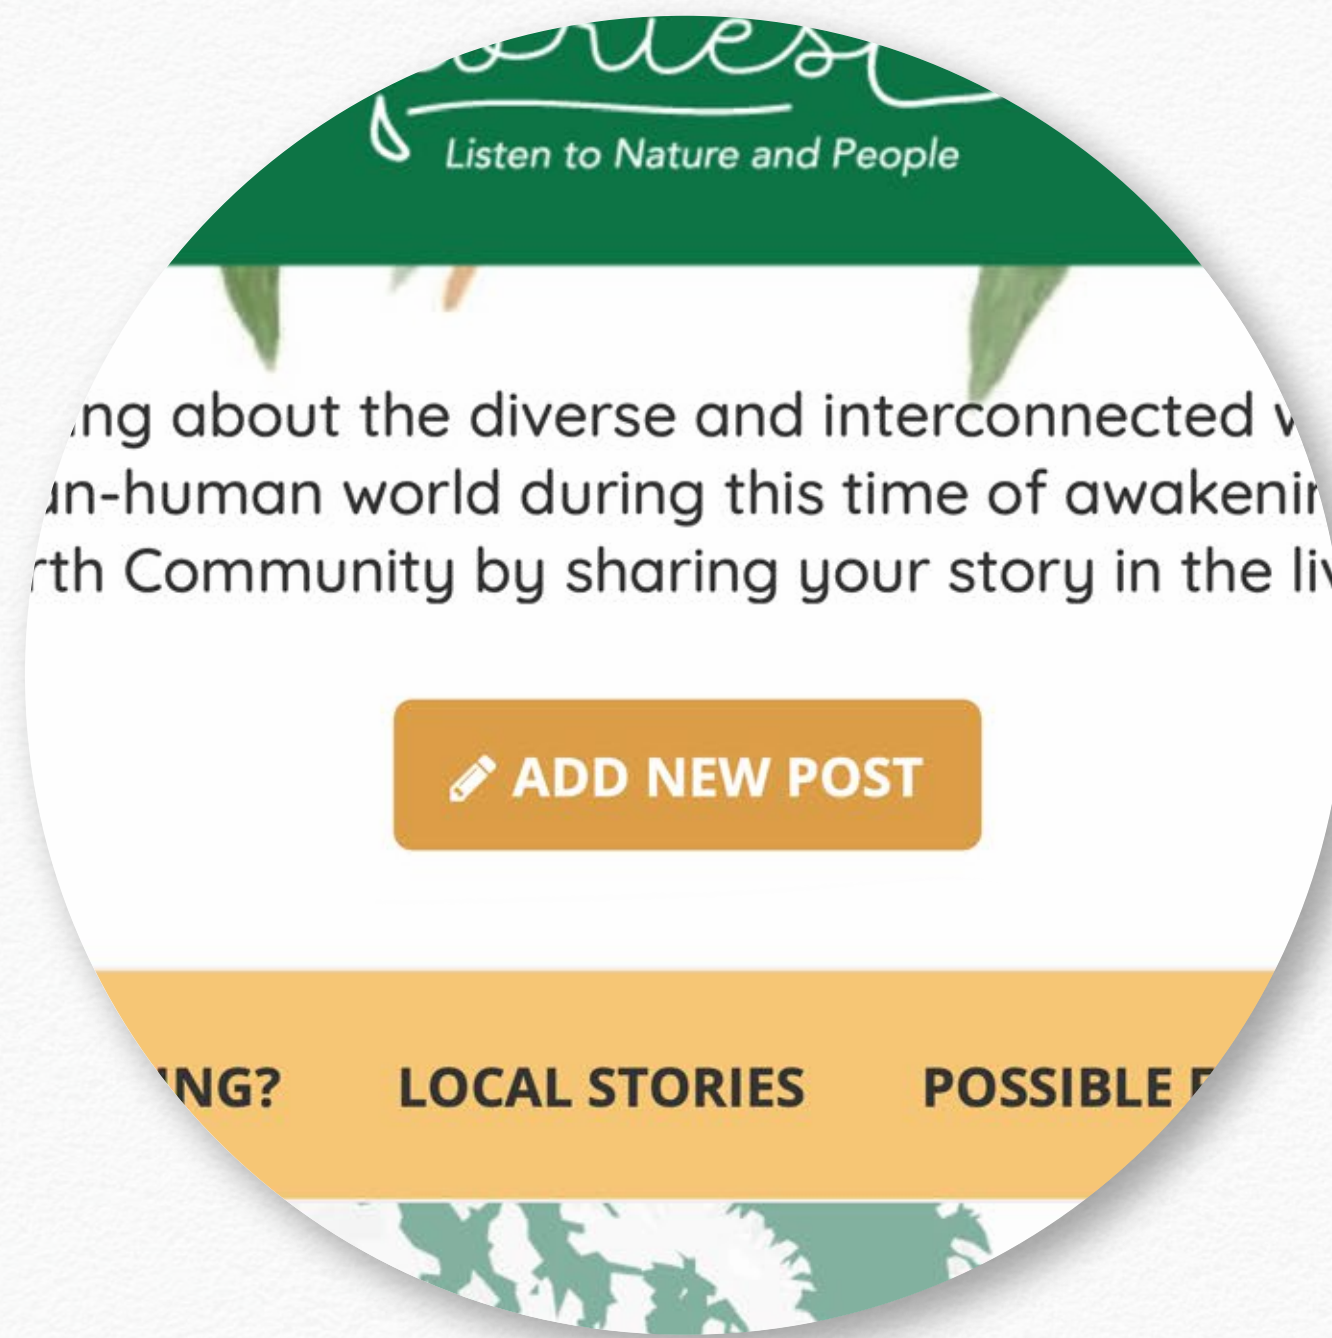

Photographs

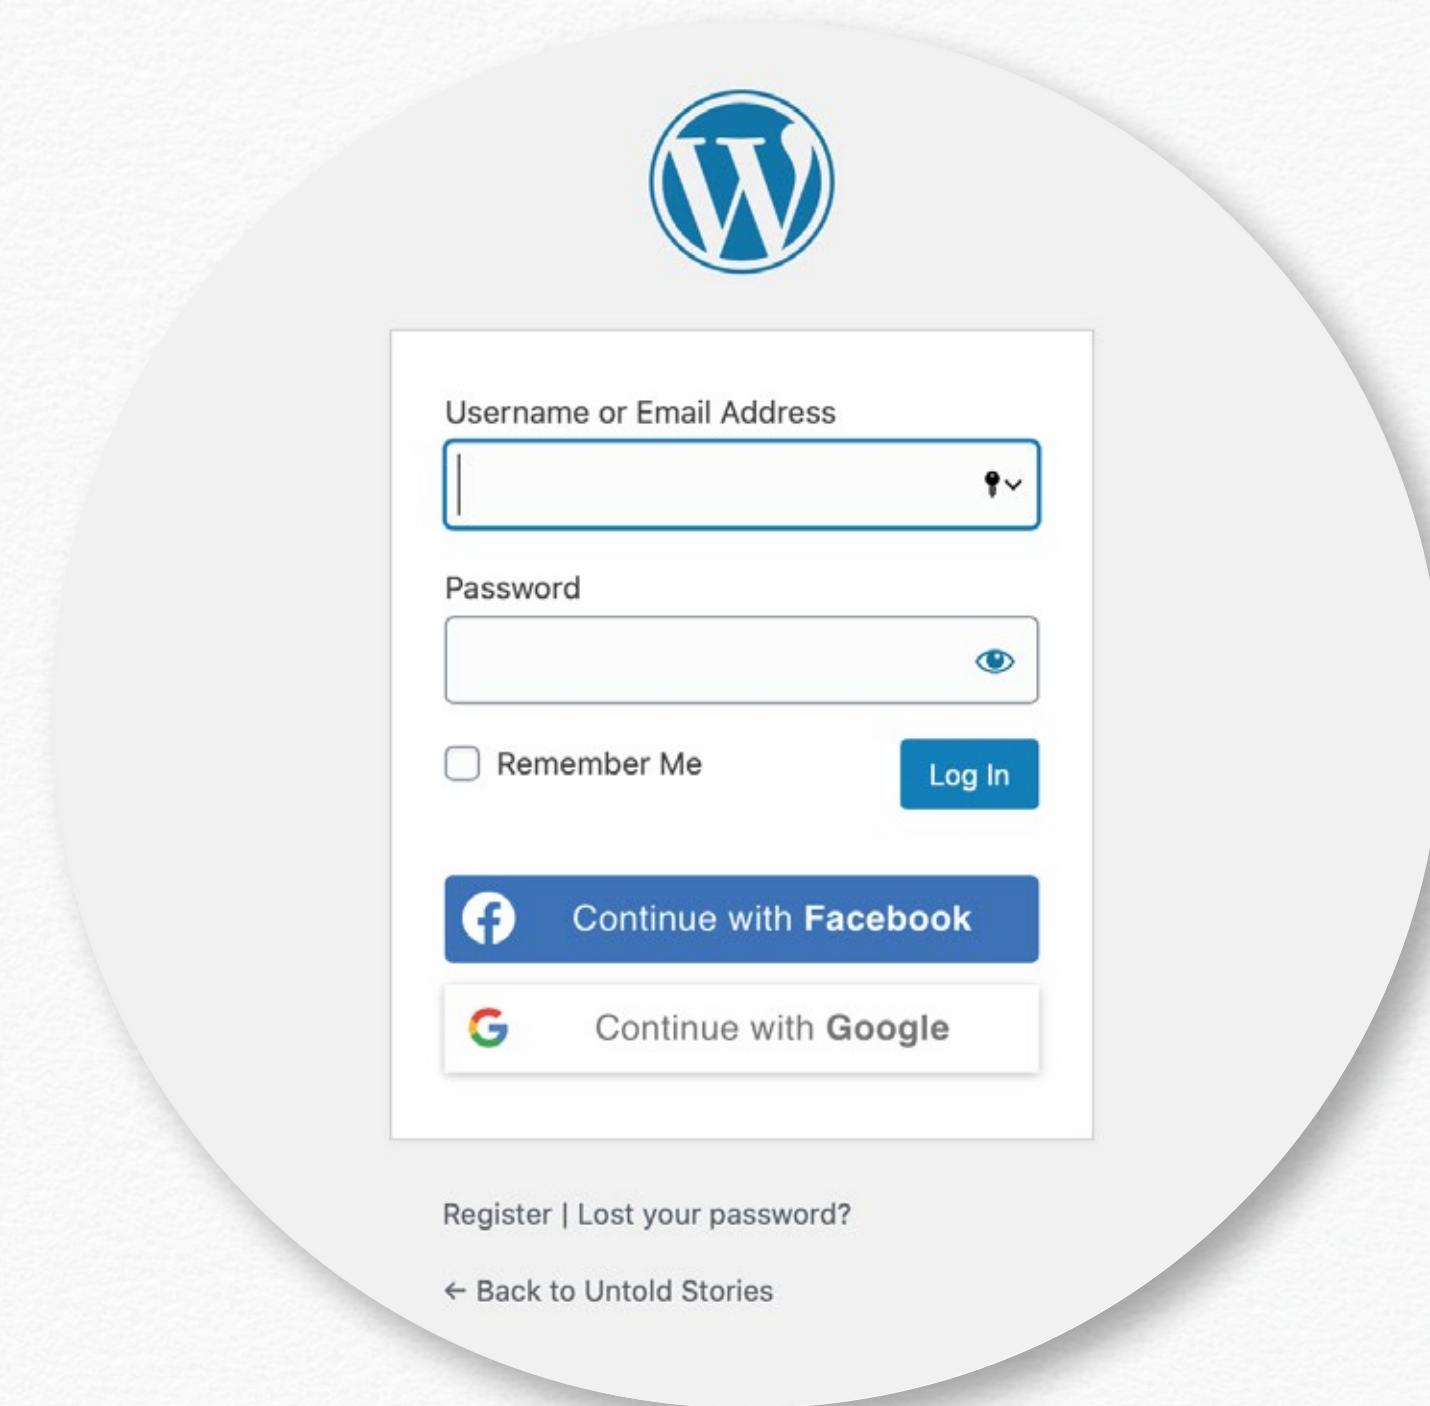

And if you prefer a  
handwritten note, you can  
upload these as well.

# Write your letter!

Access **untoldstories.site** and  
choose **add new post**

Register so you can  
add a new post

# Choose an address for your plant

Progress Map: Add locations

GPS Coordinates

Latitude and longitude of your location. Convert an address or a place to latitude & longitude. Fill the address field, click on "Search", then, click on "Get Pinpoint" to display...
